# Signature Mix

<p><b>*NOTES:</b>          We have curated select glass colours from our suppliers to be able to offer the widest range of options. Our selection of Opal and Opaque colours are limited to neutral tones.</p> <p>Glass thickness can affect colour saturation, and glass finish can change tone and density. Most colours can be made into our Pearl or Mirrored finish.</p> <p>Coloured glass is made by melting various minerals and elements into the glass, although we can colour match on request, hand blown glass is like a living material and variations are part of the process.</p> <p>We have blown and photographed each colour sphere, however the physical sample may appear different than what is shown on a computer screen or print out.</p> <p>Samples can be requested for a small fee by contacting the studio.</p>	<p>Pearl/Mirrored      Etched/Shiny</p> <p><b>Amethyst/ Ruby</b></p> 
<p>Pearl/Mirrored      Etched/Shiny</p> <p><b>Cerulean/ Aqua</b></p> 	<p>Pearl/Mirrored      Etched/Shiny</p> <p><b>Cherry/ Turquoise</b></p>
